## OVERVIEW

## A local supplier built for industrial, commercial and hospitality demand in Hwange.

Monteville Supplies & Services (Pvt) Ltd operates from Hwange with a practical supply model shaped by the realities of mines, contractors, institutions, hotels, camps and procurement teams.

- Founded in 2004 and built on long-term local presence in Hwange
- Structured for RFQs, repeat supply, urgent requirements and supplier registration support.
- Able to serve both private-sector and institutional buyers across multiple categories from one relationship.

### Quick profile

<b>Base</b>	Hwange, Zimbabwe
<b>Focus</b>	Mining, engineering and hospitality supply
<b>Support</b>	RFQs, tenders and repeat orders
<b>Reach</b>	Hwange-led with wider Zimbabwe support

### What Monteville supplies

Mining tools, engineering products, refrigeration, PPE, hospitality stock and commercial supplies.

### How buyers benefit

Closer communication, easier follow-up and a cleaner supplier relationship across categories.

### Where it fits best

Operations that value local response, practical supply coordination and dependable communication.

## INDUSTRIAL SUPPLY

## Core industrial and technical categories presented clearly for buyer review.

Monteville supports routine and project-based requirements through supply lines that fit mining, engineering, workshop, refrigeration and site-safety environments.

### Mining Tools & Equipment

Roof bolts, resin anchors, drill bits, hand tools and underground support products for active coal and mineral operations.

### Engineering & Mechanical Products

Bearings, couplings, gaskets, valves, pipe fittings and workshop consumables for maintenance and plant operations.

### Refrigeration & Air Conditioning

Commercial cold rooms, split units, compressors and refrigerant supplies for industrial and hospitality environments.

### Personal Protective Equipment

Hard hats, overalls, safety boots, gloves, goggles, harnesses and full site-safety kits.

## PROCUREMENT

## RFQ-ready support for buyers who need a cleaner supplier evaluation process.

Monteville is structured to make supplier review more practical through a clear profile, category-based service lines and direct channels for quote requests, registrations and supply discussions.

### For faster RFQs, include

Reference number if available, required category, quantities, specifications, delivery location and deadline.

### Why local matters

Closer communication, easier delivery coordination, better follow-up on changes and more confidence during supplier review.

1

#### Review services

Confirm the categories required across industrial, technical or hospitality supply.

2

#### Download profile

Use the company profile for internal review, supplier registration or tender support.

3

#### Submit RFQ

Send references, quantities, location and delivery requirements for quicker quotation.

4

#### Confirm next steps

Clarify missing details and align on response timing, delivery and follow-through.

## LOCAL ADVANTAGE

## Built in Hwange and aligned with the working realities of supply in Hwange.

Monteville's strength is not only its range. It is also its proximity to the buyers, worksites, camps and hospitality operations it serves, which helps the business respond more practically and communicate more clearly.

### Closer response

Local communication and easier follow-up when timing, quantities or delivery conditions change.

### Sector relevance

Positioned to support mines, contractors, institutions, camps, lodges and procurement teams.

### One supplier relationship

Useful when buyers want category breadth without multiplying supplier conversations.

## Relevant operating environments

- Coal and mineral operations
- Power generation support environments
- Engineering workshops and contractor projects
- Hospitality, catering and camp supply requirements
- Institutional and tender-based procurement

### Public and private-sector fit

A profile built to support serious buyer review

## HOSPITALITY

## A dedicated hospitality and commercial supply arm presented with the same seriousness as the industrial side.

Monteville's hospitality division supports lodges, camps, hotels, events and institutional kitchens with repeat-ready supply categories that benefit from dependable sourcing and responsive communication.

### Hotel Amenities

Guest toiletries, room kits and branded hospitality products for hotels, camps and lodges.

### Liquor & Beverages

Wholesale beverage supply for conference venues, hotels and licensed hospitality environments.

### Groceries & Dry Goods

Bulk sourcing for camps, kitchens and recurring hospitality stock requirements.

### Catering Support

Event catering, camp meal supply and kitchen logistics support where grouped supply matters.

## CAPABILITY &amp; LEADERSHIP

## Dependable operations start with dependable people, communication and follow-through.

Monteville's day-to-day delivery is supported by operational leadership focused on coordination, response quality and practical client communication.

### Patience Mkandla

Chief Operating Officer

Patience Mkandla oversees supply chain coordination, client communication and day-to-day operational delivery across Monteville's core divisions. Her role supports structured quoting, dependable follow-through and practical execution across procurement, hospitality and industrial requirements.

### What buyers can expect after first contact

- Request received and checked for category, urgency and missing details.
- Clarification on quantities, specifications, delivery location or timing.
- Quote, scope confirmation or next-step response within a practical timeframe.
- Follow-through shaped by local awareness rather than distant guesswork.

## CONTACT

## Ready to send an RFQ, discuss a supply requirement or register Monteville as a supplier?

Monteville is set up to handle general enquiries, quote requests, supplier introductions and repeat supply conversations from one contact base.

### General enquiries

Use [info@montevillesns.com](mailto:info@montevillesns.com) for introductions, partnerships and broader supply discussions.
